

Axis Delay DRMs

+2

for the number of VPs in the box containing the Axis Tide VP marker, if Total War is in effect.

-1

if the Axis War Production marker is in the Strategic Warfare Box.

+1

if the Reduced US Impact marker is in the Strategic Warfare Box and the USCL is 1 or more.

+1

if the Kamikazes marker is in the Strategic Warfare Box. Applies only to support units.

+2

for the Axis Delay DRM based on the location of the Pacific USCL marker on the USCL Track.

+1

if the Western Oil Embargo marker is in the Strategic Warfare Box. Applies only to support units.¹

+1

if the US Intensive Bombing marker is in the Strategic Warfare Box.^{2,3}

+1

if the Axis Material Shortages marker is in the Strategic Warfare Box.

+1

for each Axis Bomber or Sub Fleet unit in the Strategic Warfare Box.³

+1

for each Soviet Bomber unit in the Strategic Warfare Box.³

Western Delay DRMs

+2

for the Western Delay DRM based on the location of the Pacific USCL marker on the USCL Track.

+1

if the Western Victory Program marker is in the Strategic Warfare Box.

+1

if the Western Bases Damaged marker is in the Strategic Warfare Box. Applies only to support units.

+1

if the Fujiyama Bomber Production marker is in the Strategic Warfare Box.⁴ Applies only to Chinese units.

+1

if the I-Boat Strategy marker is in the Strategic Warfare Box.⁴ Applies only to non-Chinese units.

+1

for each Axis Sub Fleet unit in the Strategic Warfare Box.⁴ Applies only to non-Chinese units.

Soviet Delay DRMs

+2

for the number of VPs in the box containing the Allied Crusade VP marker, if Total War is in effect.

-1

if the Soviet War Production marker is in the Strategic Warfare Box.

+1

if the Soviet Bases Damaged marker is in the Strategic Warfare Box. Applies only to support units.

+1

if the Fujiyama Bomber Production marker is in the Strategic Warfare Box.⁴

+1

for each Axis Bomber unit in the Strategic Warfare Box.⁴

Modifiers are cumulative.

1. Do not apply this modifier if a supplied Japanese ground unit, Detachment, or Logistics marker occupies an Oil hex.

2. Do not apply this modifier if there is no US Air Base within nine hexes of a City hex in Japan.

3. Do not apply this modifier if the Allied unit or marker belongs to a TAC or PAC.

4. Do not apply this modifier to an Allied unit or marker that belongs to a TAC or PAC.

Europe/Africa Box

Use the Port-to-Port procedure to move to/from a port in the West Indian Ocean Naval Zone.

Use the Off-Map Box to Off-Map Box procedure to move to/from the Panama Canal Box.

Replacement Location for British non-colonial and Afr colonial units.

Replacement Location for French non-colonial units.

Western Naval Base, Home Country Port, Key Port, and Supply Source.

Europe/Africa Box

Delay Box

Units and markers are placed here as directed by a revealed Option Card, or if they have a Delay Stripe when they are removed from a hex.

Exceptions: Certain units are placed in the Naval Warfare Delay Box instead. Also units with Delay Stripes that are voluntarily eliminated (2.3.3) are immediately placed on the Turn Track as if a 1 Delay die roll were rolled. Apply any current Delay DRMs to get the final Delay Result.

Delay Box

Naval Warfare Delay Box

Place the following in this box:

Fleet support units involved in Contested Support Unit Placement.

The Axis Suicidal Raiders marker and any Allied Fleet support unit removed to match.

If the unmodified die roll is not 6, apply DRMs normally to determine the Delay Result.

If the unmodified die roll is 6, roll again and add the two results together. Then apply Delay DRMs to determine the final Delay Result.

Asia Map

Map of Asia and surrounding regions, including Russia, Mongolia, China, India, and the Pacific Ocean. The map shows various territories, cities, and strategic locations. Key features include the Pacific Ocean, Indian Ocean, and surrounding landmasses. The map is divided into hexagonal grid cells, with various markers and symbols indicating strategic importance and weather conditions.
